FINANCE AND TRADE.

THE FINANCIAL PUBLITION has undergone no change during the week Just ended, except that money, which was becoming superflucusly alundant, is no longer so, but there is enough for all the banks to be "comfortable," and accom-modation is within the reach of those entitled to borrow. The western cities have abundance of funds; Chicago and other papers speak of money accumulating in the banks. The Nashville papers show the banks there to be excessively tight, refusing all applications for tonus, and straining every nerve to meet the demand for eastern exchange, the buying rate of which is \$2 per \$1000. Here exchange continues to be abund-ant, finding good employment for bank funds, but the near sources of currency supply being exhausted, and a greater expense and loss of time being involved in importing currency, it has been found necessary to make a corresponding change in the rate, and we report it the Same at all the banks—buying on New York | discount, where three days grace is required 1; on New Orleans 1 dis-count, as before; the selling rate, for both south and north, par-Gold has been steady the last day or two and up to noon remained as quoted on Saturday; brokers here were offering 113\(\frac{1}{2}\) \(\frac{1}{2}\) for it. In stocks and bonds there has been nothing of interest doing accurate "statistics of cotton" for the all week. Police and fire and tax scrip are lower, also State warrants; Shelby county warrants remain firm at the tates to which they sattled a week ago. Charleston railroad stock has been neglected, and there is a thouard shares, or any less quantity, now coessible at 71. Phoenix insurance stock is inquired for; Memphis gas stock is no longer receiving attention.

OUR REVIEW the cotton market, last week, reported middling cotton in New York at 13 to, next day it was 13 - 4, on Monday 13 c, on Tuesday 13 - 16c, on Friday 18 c. New Orkan • week sgo quoted 12 c, which declined next day to 12½c. Liverpool at the same time quoted 6¼d, and so remained. Memphis this day week quoted 12½c, on Thursday it declined to 12½. This state-ment shows that changes have been slight, and that at existing rates slight, and that at existing rates cotton | Total. has been very steady. The receipts at Memphie are largely increasing above those of last year, and the shipments have been in heavier proportion than the receipts. Receipts continue to be full; 185,000 at all the parts against 158,-000 at the same time last year, and still less in the years preceding. This—with the monetary embarrassments existing especially in Austrian, Pruesian, and English Indian trade, with heavy back-ruptcies at times in England and occasional ones in France—is sufficlent to account for the lower price of cotton as compared with last year. In connection with the yield of the present season, the following from Smith, Edwards & Co.'s Liverpool Cotton Circular, which estimates our present season's crop at 4,100,000, says; "We hear already of the arrival of great quantities of the lower grades at the ports, and we have no doubt as the season advances that this will give middling and above a decided advantage—the consumption is now running very much upon clean American cotton, id it must be thrown off it to some extent as the season goes on—as we have already indicated, a crop of 4,100,000 will scarcely be sufficient for the wants of the world; it will cause a decided reduction in stocks, and will undoubtedly raise the level of prices scoper or later; indeed, we think even a yield of four and a quarier million will scarcely keep cotton down to its present low level which is rather below the prices current for five years before the American war. At the moment the enormous recelpts at the American ports have a depressing influence, but we consider them to be of very little value as a guide to the size of the crop. There seems every reason to believe that we shall carry lighter stocks all through the season than last year, and it will become increasingly apparent that a very large crop will be need-ed to keep down prices. The general weak trade of the country is now showing distinct signs of revival. Manchester will no longer be a source of weakness to this market, but probably the reverse, and we think that more or less the same loubt that on the basis of present prices for the raw material a good time Is before the spinners and manufacturers We expect the deficit to England will increase and people will be impressed with the strength of our statistical posi-

New York spots were steady and firm all day, with 1-16c alvance; futures were firm until noon, then they became easy and closed weak. Liverpool was firm all day, and New Orleans closed firm. The askings in our market cicsed stiffer, and 1-16c advance was established, as appears in the comparative quotations below. The demand ran principally on the better grades, and the market closed steady at the advance. We have received from Messis. Since they went away there has been great quietude, considering that Rec apts in Memphis during the week Friday aggregated 27,294 bales, we are beyond the middle of November, when business ought to be very brisk Corn is weak and drooping, sales of shelled were made at 52c, and of ear corn is weak and drooping, sales of shelled were made at 52c, and of ear corn at 50c. Oats are in little demand, and bring on the elevator 40@455 according to quality. Hay remains very heavy with poor demand. Comment has been on the "down grade" all week, and sold yes erday down to \$2 50 for good, sound, kilndried meal. The low, and still sinking prices of corn give cornmeal no chance, and the demand continues as slight as ever. Butter is quiet and steady at quotations; choice is hard to find. Eggs have been advancing all week and are held more firmly as the weather becomes e lier. Flour is heavy with no change in rates. Chick-is and consolidated coppon gold bonds at 160c, ens are clow; hear were in good request when large; "small stuff" had better be kept at home. Ducks and geose are in only moderate demand at unchanged prices. Tarkeys meet with a ready sale when fine, fat and large, such have brought up to \$17 and \$18; small are taken on speculation to feed for Caristines; not over \$6 or \$6 50 is given for them. The raisers had better keep them at home and fatten them. Apples are in fair demand at \$2,50@5 50 as extremes. Fresh beef is higher, but hogs are lower. Bran is lower, sales are at \$18.25, the effort to raise it to \$19 was a thorough failure; the fact is the course of prices all rund is downward, and bran cannot escape the common fate. Baling stuffs are as drooping and as irregular as ever; it is useless trying to give quotations, but \$24 to has been freely offered at 12&c. Cheese has brought several holders. To grief;"

Cabbage has been drooping, but very fine and perfectly fresh never fail to command fair prices Groceries generally offer little change; new molasses and sugar are arriving and prices lowering. Onions are in moderate demand at low prices; round lots can be had at \$1.50 for the best; in sack offering at 500 a oushel in store. Provisions have been declining almost day by day, and western papers intimate that a solid basis is not yet reached. The Chicago Tribune, of Friday, reports: "Hog products were quiet, and a steady feeling prevailed turoughout the session of 'change, due in a great measure to the fact that there were relatively few outside orders on the market, and the local speculative element were petther anxioust; buy nor to sell beyond limited quantities. The neat little Era No. 9, Captain Basket, le he St. Francis river packet this evening. The Elia, of the Elilott line, goes out for While river at the usual hour this afternoon. The Thompson Dean is up for New Orleans to-morrow evening. R. M. Bradford and R. W. Lightburne are her agents.

The Susie Silver got in yesterday afternoon with a good trip. She got over six hundred bales of cotton here, and went on down to New Orleans.

The Osceola, Captain Flower, of the Milt Harry White river mail line, skips for White river this evening. Particulars will be found in the advertising columns.

An Evansville dispatch of the twentieth says that the Pat Cleburne has laid up there. Her career as a Memphis and Evansville packet was short and sweet. White river at the usual hour this aftern ville packet was short and sweet.

We want our friends distinctly to understand that we have not the time to devote to th next term of the mayoralty, therefore we will not allow our name to go before the convention.

The Minneois, Captain Lightburne author-

the other a liar, to which the other responded with "You're a puppy." Then they spat in each other's iace, and went to fisticuffing each other in good earnest. Friends interfored before much blood was spilled. The question as to who cut rates was not settled.

The Legal Tender goes out in piece of the Quickslep this afternoon, with Captain Stack Lee, aided by his afternoon, with Captain Stack Lee, aided by his afternoon, with Captain Stack Lee, aided by his very efficient curps of assistants, in command. The Legal Tender has recently undergone a thorough overhauling, and is now as handsome and in every appointment as comfortable as any of our local packets. She is more commodious than the Quickstop, which we learn is the occasion of the change. We are glad to hear of this evidence of prosperity, and know of no one we would better like to see thus afflicted than Captain George W. Cheek, superintendent of the Memphis and Vicksburg line, has erfected arrangements so that hereafter the lilinois will make close connections with the Chicot railroad, the Parisot line for all points up Eed river, and with the Vicksburg and New Orleans packst R. K. Lee, for New Orleans. Special raises will be made with all these connections, and the promptness with which the Illinois has transacted all missness intrusted to her gives assurance that this new arrangement will prove a great source of convenience and accommodation to the traveling and shipping public. The Illinois is on the boards for Vicksburg this evening, and will give especial attention to through business by either of these connections, as well as all way business intrusted to her.

CUSTOMHOUSE, VICKSBURG, MISS., COLLECTOR'S OFFICE, November 17, 1875. COLLECTOR'S OFFICE, November 17, 1875.

SIR-I have to say that this office has been informed that the steamer Illinois, and probably other steamers, are making or have made propositions or arrangements to ship coal oll or like articles to this city from Memphis, St. Louis and Cincinnati. Will you be kind enough to prevent the delivery at your wharfboat of any such articles? The shipping of such articles by boat, when it can be done by railroad, is in clear violation of the steamboat laws, etc. I am, respectfully, your obedient servant,
